PRO2 with adjustable Seat

PRO2 with fixed seat

Adjustable Upper and Lower Cranks

PRO2[®] Total Body

SCIFIT's PRO1000 is designed to provide the ultimate in The SCIFIT PRO2 is the industry's most versatile rehab tool. The PRO2 offers upper body, lower body or total body exercise. Developed by rehabilitation professionals, adaptability makes the PRO2 the choice for physical therapy or total body wellness. Its effectiveness means therapists can treat more patients in less time. And its sophisticated program options make documenting functional outcome easy. The PRO2 offers the versatility to meet the needs of the full spectrum of clients.

- The upper and lower cranks on the PRO2 are dependent allowing individuals to use passive assistance – using strong limbs to drive weaker limbs through the range of motion.
- The PRO2 features a true adjustable step-through design, allowing all users full access.
- Adjustable upper and lower cranks allow for greater range of movement, exercise variety and a custom fit.
- Adjustable seat system features the Therapist Assist Pedal. Seat adjustments are made using the pedal, leaving hands free to assist the patient.
